MAKE A MASK MAKE A DIFFERENCE
GLOBAL GAME CHANGERS®

GLOBAL GAME CHANGERS STUDENT EMPOWERMENT PROGRAM
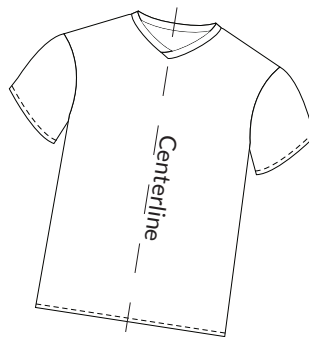

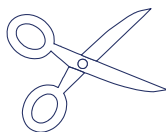

LIFT UP LOU

OBJECTIVE

The Center for Disease Control has stated that masks are key in helping control the spread of the COVID-19 virus. In fact, wearing a mask is one of the easiest and safest ways to stay well. Unfortunately, there is currently a shortage of masks in our community, especially for our most vulnerable citizens. Which is where our Louisville community members can team up to help IGNITE GOOD! by making 7000+ masks from t-shirts!

adult size width 7 in.

MAKE THE MASKS

1. Fold the t-shirt in half along the centerline.
2. Place the flat edge of the template on the crease of the fold.
3. Cut around the edge of the template, but do NOT cut along the crease.
4. Take the cut out shape and fold it in half perpendicular to the crease.
5. Cut half a heart out of the new crease, starting and ending at the crease, this is the loop for the ears.
6. **Unfold the creases but keep the two layers together as it is important to have multi-layered masks.**
7. Repeat steps 1-6 with the remainder of the shirt.
8. OPTIONAL: Glue the edges of the two layers together using tacky glue or fabric glue.
9. Place the finished mask(s) in a plastic grocery bag or ziplock bag.

PICK-UP & DROP-OFF SITES & DAYS

VISIT globalgamechangers.org/makeamask for information about FREE mask-making kits, pick-up locations, while supplies last, and finished masks drop-off locations.

All masks will be processed through proper sanitation in accordance with CDC guidelines before being distributed to those in need by the Salvation Army.

REFLECTION

ASK: How can we encourage others to help during this time, so Louisville can continue to be united as a community even when we are apart due to social distancing?
