

Happy Earth Day, Superhero!

We celebrate birthdays with parties, so why don't we celebrate Earth Day with a party, too? Check out the party ideas below, then use the next page to plan a party as spectacular as our planet!

Invitations

Consider sending out e-invitations to save paper—and trees! With an adult's permission, check out websites like Evite, Paperless Post, or Punchbowl.

Location

Is there a park, backyard, farm, or field nearby?

Activities

- Turn trash into treasure by creating sculptures out of recyclables, glue, and tape!
- Create your own nature scavenger hunt or use the one on page 9.
- Make seed bombs using air-dry clay, dirt, water, and seeds of your choice!
- Make party keepsakes by creating leaf rubbings.
- Split into teams and see who can pick up the most litter outside!
- Tie dye t-shirts blue and green to resemble Earth.
- Create reusable bags from old t-shirts by cutting along the dotted lines and tying the bottom together!

Decorations

- Use washable plates and utensils or ask people to bring their own to cut down on single-use plastics!
- Reuse decorations and flowers from other spring holiday celebrations.
- Instead of using cut flowers, plant your own and give the pots away as party favors!
- Use the nature around you, but make sure to be kind to it.

Food

- Find out what foods are grown in or near your community. The less far they have to travel, the less carbon dioxide released into the air from cars!
- Give seaweed a try, it's good for both you and the planet.
- Infuse water with your favorite fruit!
- Avoid food individually packaged foods to reduce on trash!
